

BRINGING BACK THE SACRED TO WATER:

INTER-GENERATIONAL DIALOGUE ON INDIGENOUS WISDOM ACROSS CULTURES

When we talk about "sharing water", it is important to talk about our relationship to water across different cultures. This is an opportunity to introduce participants of the forum to Traditional Ecological Knowledge (TEK) through stories and narratives shared by invited indigenous speakers from different regions of the world.

A key question to be explored is: how can traditional and indigenous wisdom help meet the needs of today's water challenges?

We invite: young leaders and citizens alike to join our circle in a very unique atmosphere, to explore these questions

March 20th, 18:00 – 19:30 hrs.

**Venue: Citizen Forum
- Dialogue Room**
